

BM66 – VIENNA

7b07

Internal motion

Resolution

Amendment

Title: Student health care

Point of the agenda: 7b

Proposed by: SAMOK, SYL

Seconded by: NUIS, VVS

Text:

1 Students' well-being is key for them to complete their studies successfully.
2 Having sound health care during one's studies also contributes to a healthy
3 working life later on. Access to quality, expert health care services, should
4 therefore be the right of every student. This should not be dependent on
5 the higher education institution, location of studies, or the students' socio-
6 economic background.

7 ESU supports the Union of Students in Finnish Universities of Applied
8 Sciences – SAMOK - and the National Union of University students in
9 Finland – SYL - in their struggle and appeal to ensure an equal and quality
10 health care system for students. The financing for maintaining the current
11 infrastructure and to expand the system, to cover all students in higher
12 education, needs to be ensured by the Ministry of Education and Culture as
13 well as municipalities. In addition, ESU appeals to the members of the
14 Finnish parliament to address this inequality in students' health care in
15 Finland that has been neglected for years.
