- 1 ANSA is running a new campaign to protect the rights of male students in  
2 Armenia, due to a new proposal by the Ministry of Science and Education of  
3 RA that would make changes to the existing law on the "Military Service".  
4 This proposal was introduced on 24 January 2014.
- 5 The Ministry proposed that male students must have a frozen deposit in  
6 Armenia of 8.5 mln AMD (approximately 14 900 EUR) for the time that they  
7 will be studying abroad, if they have not been in the army.
- 8 Due to this, students will need more money for their tuition fees and  
9 accommodation in those countries where they will be accepted to study.
- 10 In this context and in line with ESU's commitment to establish equality for  
11 all citizens, ESU supports campaigns that target reduced mobility of male  
12 students.
