

BM69 – CLUJ-NAPOCA

Resolution: ESU supports Higher Education Law Reform in Republic of Srpska

Based on the principles of Bologna process and student participation in decision process making in the field of Higher education,

European Student Union strongly supports Student Union Republic of Srpska in their effort for adoption of the revised Higher education law in Republic of Srpska, which will be based on principles of:

- student-centred learning
 - mobility in higher education
 - self-reflecting learning process
 - self-orienting study programs,
- and in full correspondence with the spirit and sense of Bologna process.

We encourage SURS for a proactive and strong attitude in the process of adoption of the law, as well in public discussion with other stakeholders.

Proposed by: SURS

Seconded by: SSU, CSC, SUS, SKONUS, NUSM
